Hi

This is Satya Mallick from [LearnOpenCV.com](http://LearnOpenCV.com)

A couple of months back you filled out a survey to help me design a course. Thank you so much!

There are two kinds of people we need to be successful in life.

**Mentors:** These are individuals who guide you. They show you the path forward.

**Friends:** These are people who root for you. They want you to be successful. They believe in you!

Starting anything new is incredibly difficult. I needed a lot of help and by helping me out with your time and thoughts, you are like a friend who I have never met :).

Imagine my joy when I say that the course is now open for enrollment!

<http://courses.learnopencv.com>

Enrollment closes on **April 12, 2017**. The course will launch on **June 19, 2017**.

There is a **10% discount** for all the people who **enroll today**.

For all my friends who helped me in this journey, I have a **coupon code**

**FRIEND**

Use it at checkout to receive an **additional 10% discount**.

I am so excited about this course. Thank you so much!

**Satya**
